

RPActionInterface

```
graph BT; KCL_rosplan::MoveArmInterface --> RPActionInterface
```

A UML class diagram illustrating inheritance. At the bottom is a gray-shaded box labeled 'KCL_rosplan::MoveArmInterface'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'RPActionInterface'. The arrow indicates that 'KCL_rosplan::MoveArmInterface' inherits from or implements 'RPActionInterface'.
